

- Agile without losing capacity or performance
- No CDL requirement to operate provides flexibility for a team
- Versatile design for universal market appeal

VALU LINER

The ValuLiner series offers quality equipment with all the necessary features at an exceptional value.

CHASSIS

- Isuzu Model NRR Diesel Class 5
- 19,500# GVWR; 7,275# front GAWR; 13,660# rear GAWR
- 150" wheelbase
- Isuzu 4HK1-TC Diesel, 5.2L 4 cylinder, 215 hp @ 2,500 rpm, 452 #/ft torque @ 1,850 rpm; Vertical exhaust
- Allison Model A465 Automatic; 6 speed transmission
- Suspension driver's seat
- Back-up camera built into audio system with dash mounted 7" color display
- Aluminum rear fenders

DECK

- 3/16" smooth aluminum 88" wide deck with grip material in walk areas
- (2) aluminum 18"x14"x24" toolboxes
- (2) steel fold up ladders
- Stair step rear access
- 32" high railing with mid-rail at operator stations with weatherproof black vinyl padding on side rails
- (2) non-suspension high back black vinyl seats with armrests, seat belts & seat tethers mounted on toolboxes
- 5# and 10# Fire extinguishers
- (2) Cup holders
- Powder coated white
- Welded on canopy to protect rear operators from sun

MECHANICAL FRONT GUIDE

- Pneumatic lift with swivel caster tire
- 6' to 10' extension, collapsible for transport

GUN CARRIAGES

- Medium duty steel parallel arm style gun carriages; single center swivel caster wheel mounted behind rear tires
- Pneumatic lift with lift switch in each SC-12 Master Control Box
- Auto-hold transport brackets
- Outrigger single tube-in-tube construction with UHMWPE wear pads
- Orbital steering motor power steering with wheel and spinner knob
- Zinc plated adjustable brackets & rods

PAINT CAPACITY

- 230-gal capacity 2 compartment 10 ga 304 grade stainless steel tank; with splash area holds 115 gallons white, 115 gallons yellow; dip sticks for paint level monitoring

- coated interior surfaces with EZ-Slide RB-9512 graphite-based coating
- (2) hydraulic paint agitators, 1 per color section

PAINT GUNS

- (3) Graco 238-377 paint guns; Paint tips XHD-555
- handgun plumbed to white surge chamber; 25' hose whip with double L brackets that hose can be wrapped around and ends secured with a quick fist grip

HP PAINT PUMPS

- (2) Model 445-345 Titan/Speeflo
- Manually controlled paint pressure and on/off valves at pumps/operator stations
- Cam & groove fitting at inlet of each HP paint pump
- (2) HP canister paint filters 18 sq. in. each with drain port returning to paint tanks
- (2) 1" HP check valves
- (2) ASME surge chambers -1 per color

LP PUMPS

- 1-1/2" ARO load/charge pumps, 1 per color
- (2) LP filters: 100 sq. in. each with drain port

BEAD TANK

- 1000 # bead capacity with 2" diameter sight level gauges at 1/4, 1/2, & 3/4 level
- Screen in neck of tank
- Vacuum loading w/ 1" Penberthy jet pump & muffler
- (1) 2" ID x 12' crush resistant corrugated chemical transfer hose w/ king nipple

BEAD GUNS

- (3) Graco 238-338 bead guns

AUXILIARY ENGINE

- Cummins Model QSF2.8 Tier 4 Final; 74 hp

HYDRAULIC SYSTEM

- (2) pumps: one 2.75 CIR press. comp. piston pump & one 3.0 CIR gear pump
- 50-gal reservoir; 50 gpm hydraulic oil cooler with preset temperature switch
- Flow control valve to supply constant hydraulic oil flow to air compressor

AIR COMPRESSOR

- 85 cfm Boss Industries Model 80102-AHBI

- 12-gal air tank
- La-Man 111-F two stage air dryer with auto ejector drain
- Air control box at right side of left operator with bead tank regulator & gauge
- Air take-off's -one on each side by gun carriages with quick connect fitting
- Humphrey Model M310 air solenoids

ELECTRICAL SYSTEM

- Hoffman electrical box
- Skip-line control: Skip-Line, Inc. Model SC-12 system
- (3) Gun Actuator Switches also referred to as Gun Raiser Switches for paint guns
- (2) gallon counts-one per color
- Kill switch (main power switch) for striping guns in chassis cab

INTERCOM SYSTEM

- David Clark U3800 system with (2) dual muff Model H3432 headsets for the rear operators and (1) single muff Model H3492 headset for the driver; (3) storage hooks for headsets-(1) chassis cab & (2) OP area

SAFETY LIGHT SYSTEM

- (4) Whelen L41AP LED strobe lights; 1 pedestal mounted on each front corner of deck; 1 on each back corner of the canopy roof
- (2) Whelen Model LINV2A amber 180-degree LED strobes; 1 on each gun carriage
- (8) Hella 1000 lumen LED work lights; 2 on canopy facing forward; 1 under deck near LP pumps; 4 carriage lights, 1 behind and in front of each carriage; 1 front bumper mounted
- (2) overhead dome lights in operator area, 1 over each seat with red/white option
- (1) Whelen TAC850 arrow stick on rear of canopy
